

## Palletisers of the PK Series

Application Low-level infeed with lifting table

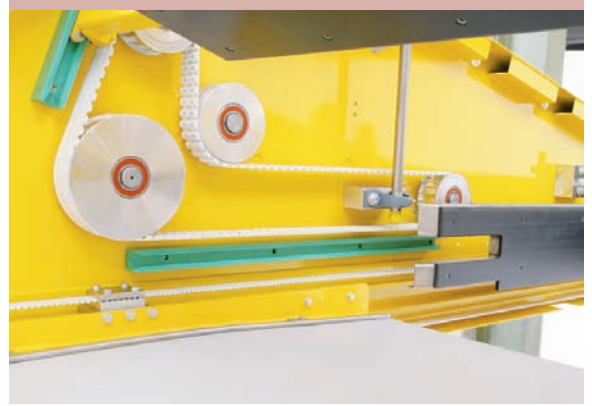

**PK 110**

- **Modular design**
- **Servo-technology**
- **Synchronised belt drive**
- **Operator-controlled layer pattern**
- **Processes all standard pallet sizes**

Machine type  
PK 110

Infeed conveyor with intermediate table

Toothed belt driven layer cross pusher

Machine type PK 110

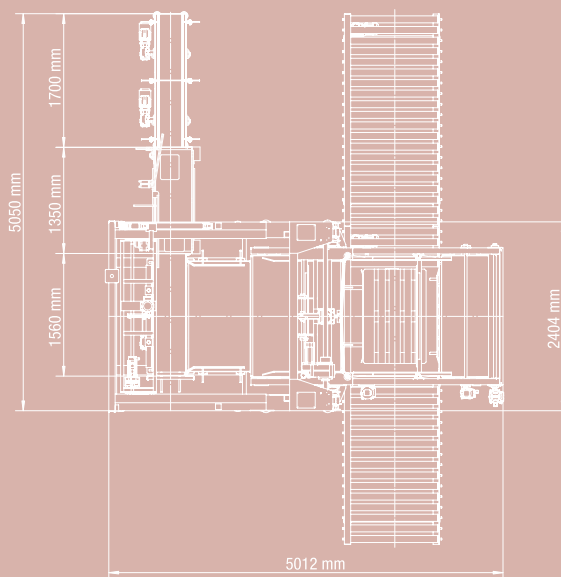

Empty pallet magazine

### Technical data

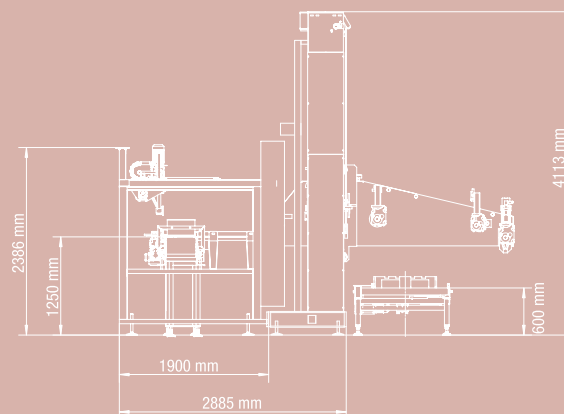

TYPE	OUTPUT (max.)
PK 110	4 layers/minute

### Technical specifications

Pallet height	max. 2,000 mm
Electrical controls	Siemens S7
Compressed air	6 bar
Weight	approx. 5,000 - 6,000 kg
Active output	15 - 20 kW
Voltage	230/400 V 50 Hz
Product length	400 mm
Product width	430 mm
Product height	max. 350 mm
